EDUCATION

GM University, Davanagere, Karnataka

2023 – 2027 (Pursuing)

Bachelor of Technology (B.Tech) – Computer Science & Engineering (AI & ML) | Cumulative CGPA: 9.1/10

TECHNICAL SKILLS

Frontend: React, Next.js, Tailwind CSS, Responsive UI Development, Component-Based Architecture, Frontend Performance Optimization, HTML5, CSS, Bootstrap

Backend: FastAPI, Node.js, Spring Boot, Flask, ASP.NET Web API, RESTful API Design, Authentication & Authorization, Backend System Design, JWT

Languages: Python, JavaScript, TypeScript, Java, C, C++, SQL

Machine Learning & AI: Machine Learning, Deep Learning, Feature Engineering, PyTorch, Scikit-learn, Pandas, NumPy, Natural Language Processing, Computer Vision, RAG Systems, LLM Integration, Data Visualization

Databases: PostgreSQL, MongoDB, Database Schema Design, Query Optimization, Relational Databases

Cloud & DevOps: Docker, Git, GitHub, GitHub Actions (CI/CD), Cloud Deployment (Vercel, Render), AWS, Azure, Virtual Machines, Public IP Deployment, Port Forwarding, Firewalls, ngrok, Environment & Secrets Management

Other: API Testing, SaaS, Agile/Scrum, Unit Testing, Debugging, Team Management, Problem-Solving, Adaptability, Kannada, English, Hindi

PROJECTS

Cloud Storage Web App

Oct 2024

Tech Stack: React, Supabase

- Built a personal cloud storage app (Google Drive-style) using React and Supabase, supporting secure file uploads up to 15 GB, with authentication, real-time updates, and a clean, responsive UI.

GM Finance – Company Audit & Document Management System

Jan 2026

Tech Stack: Next.js, React.js, Node.js, SQL

- Developed a secure platform managing 500+ corporate compliance and financial documents with role-based access control, version control, and audit logging; deployed on a VM with a configured public IP and firewall rules.

Email Automation Platform

Dec 2025 – Jan 2026

Tech Stack: Python, Flask, SMTP

- Built an automation platform for GM League Season 2 sending 1,000+ personalized emails using role-based templates and real-time delivery tracking; used ngrok to test webhook callbacks pre-deployment.

GM League – EMS (Event Management System)

Aug 2025

Tech Stack: Flask, Socket.io, SQLAlchemy, REST APIs, JWT, SQL

- Developed and deployed a platform to streamline player/team-owner registrations and manage bidding, handling 500+ sign-ups and 20+ team owners; hosted on a VM with port forwarding and firewall rules, with Socket.io powering real-time updates.

RESEARCH & PUBLICATIONS (IN PROGRESS)

AI-Based Early Oral Cancer Detection Using Deep Learning – Patent Research

In Review

- Developing deep learning models for the early detection of oral cancer using clinical images and AI-assisted diagnostic techniques.
- Focused on improving early screening accuracy through explainable AI, computer vision, and accessible diagnostic support for healthcare professionals.

AI-Driven Legal Compliance Framework for Secure Software Development

Research (In Progress)

- Researching AI techniques to identify security vulnerabilities, software licensing conflicts, and regulatory compliance issues in source code.
- Exploring explainable AI, automated policy validation, and secure coding standards to support trustworthy, legally compliant, and AI-assisted software development.

CERTIFICATIONS

- Advanced Deep Learning & AI Systems (Udemy)
- Neo4j Graph Data Science Certification (Neo4j)
- Neo4j & Generative AI Fundamentals (Neo4j)

ACHIEVEMENTS

- Won 1st place in 3 hackathons — Srishti (National-Level, 36-Hour Hackathon), Emerge 2025 (State-Level Hackathon), and the GM University Hackathon.
- Placed 2nd in a National-Level 24-Hour Hackathon (Hyderabad) and 2nd Runner-Up in a National-Level 30-Hour Hackathon (Mumbai).
- Elected as General Secretary, Student Affairs at GM University (Jan 2023 – Present), leading Student Affairs and organizing national-level events, including Ignitron.
- Co-founded Stack Education, leading technology strategy and product development as Co-Founder & CTO.
- Mentored 250+ students through technical workshops, hackathons, and AI/ML learning initiatives.
- Served as Judge for 5+ hackathons, evaluating innovative projects across AI and emerging technologies.
